

Anthony B. Freay

EARLY ADOPTER · SOFTWARE ENGINEER · CREATOR

East Rutherford, NJ 07073

+1 (551) 206-0263 | anthonyfreay@gmail.com | www.anthonyfreay.com | [anthonyfreay](https://www.linkedin.com/in/anthonyfreay) | [anthonyfreay](https://www.instagram.com/anthonyfreay)

Summary

A software engineer who uses curiosity and drive to solve problems and improve technical skills. Actively pursuing a full-time software engineering / full-stack developer position. Recent internship experiences at BNY Mellon has given exposure to how an application is designed, developed, and deployed within a wide-scale enterprise environment, as well as the importance of Test-Driven Development. Always ready to learn new technologies and continually grow by pursuing technical and non-technical challenges.

Education

Villanova University (VU)

May 2020

BACHELOR OF SCIENCE IN COMPUTER SCIENCE & PSYCHOLOGY

Villanova, PA

Awards: O'Toole Presidential Scholar

Completed Courses: Data Structures & Algorithms I & II, Platform-Based Computing, Computer Systems I & II, Discrete Structures, Analysis of Algorithms, Theory of Computation, Information Visualization, Database Systems, & Software Engineering

Current Courses: Human-Computer Interaction

Skills

Programming	<i>Advanced:</i> Java, Golang, Selenium Web Driver <i>Intermediate:</i> HTML/CSS/JS, ReactJS, OpenAPI Spec (Swagger)
Deployments	<i>Intermediate:</i> Docker, Artifactory
Databases	<i>Intermediate:</i> MongoDB, MySQL
Languages	English (<i>native</i>), Spanish (<i>fluent</i>)

Work Experience

BNY Mellon

Jun. 2019 - Aug. 2019

SUMMER TECHNOLOGY ANALYST

New York, NY

- **Overview:** Develop and deploy an automated regression test of an API user interface leveraging Java and Selenium Web Driver

BNY Mellon

Jun. 2018 - Aug. 2018

SUMMER TECHNOLOGY ANALYST

Jersey City, NJ

- **Overview:** Given freedom to fully design, develop, and deploy a full-stack URL shortening service using Golang, ReactJS, MongoDB, Nginx, and Docker company-wide, reaching 35 countries and 52,000 employees
- **Front-end:** Developed with a minimal design using ReactJS
- **Back-end:** RESTful API developed using Golang, visually documented using Swagger, and utilized MongoDB to store mapped URLs

Leadership

Villanova University Tech Crew (VUTC)

Aug. 2017 - Present

SENIOR STAFF MEMBER

Villanova, PA

- Assist in the facilitation of VU's event production needs and on-boarding new members
- In the 2018-19 academic year, produced 31 events including Orientation, Special Olympics, and Commencement
- Resident content creator for all social media platforms

Projects

simple-url	Redesigning and optimizing URL shortening service
personal-site	Designed, developed, and deployed personal-site to improve web development skills and increase digital presence

Hobbies

Photography/Videography Freelance photographer/videographer specializing in portraits and cityscapes
